Dear Sirs:

Re: Construction of Portable Office Building Annex
File 50182 P-78; Code 4095

Further to our letter of July 19, 1978 addressed to Cathy Ferguson of your department, the Authority has considered the requirements for issuance of a building permit for the subject portable annex to its office building in Meadowvale.

It is not understood why the building department considers the present office an historical building since to the best of our knowledge it has not been designated as such. In any case the portable annex is being attached by a corridor to an addition to the former house, which was constructed only some 10 years ago.

The following resolutions have been adopted by the Authority:

62/78

"Resolved that this Authority approves of the construction and placing of a portable annex at the Authority Administrative Office in Meadowvale, the approval of the Ministry of Natural Resources already being received; and

That the City of Mississauga be advised of this resolution."

✓ RESOLUTION AVAILABLE

....continued

July 25, 1978

I-1-a

223 EC 78

"Resolved that the Authority request the City of Mississauga for exemption to the part of By-Law 5500, as amended, under Building Code Section 19 (1)(f), which requires 'brick facing' on an office structure which would not conform to the main office building and the general characteristics of the buildings in the hamlet of Meadowvale; and

Further that the portable annex construction is to be of white fireproof, steel siding which would blend in with the main office building."

Attached is a copy of a letter from the Ministry of Transportation and Communications as required by your Building Department.

It would be appreciated if consideration could be given to this subject by General Committee of Council at its meeting to be held August 2, 1978 in order that the Authority can obtain a permit and proceed with the execution of this portable annex as soon as possible.

Further to our discussion of July 17, 1978, it would be appreciated if a delegation from the Credit Valley Conservation Authority could appear before City Council at its meeting to be held August 14, 1978.

The purpose of this delegation is to request Council to adopt a resolution to waive Section 19F of Zoning By-Law 5500, as amended, which requires a brick facing on the structure.

The proposed building is a temporary portable office annex, to be constructed of white steel siding to blend with the colour of the other Authority buildings. It is anticipated that this temporary building will be on site for approximately three years.

Dear Sir:

The Dundas Secondary Plan has come to our attention.

We are a productive chemical company with 36 employees most of whom are Mississauga residents.

For the past 15 years we have conducted business in M2 Zone on the east side of Mavis Road.

We are most distressed to learn that you plan to fill the area with dwellings right up to our back fence. This seems like bad planning and it is certainly unfair.

Like any producing industry we must keep changing and adding capital to keep up to escalating taxes and other costs. Heavy industry and residential sites are just not compatible.

The municipality might look good in the short run developing this big bedroom community; but in the long run what will happen to producers like us?

Attention: Mr. R. Searle, Mayor

Dear Sir:

I would like to draw your attention to the Dundas Secondary Plan.

I own and operate a very busy Truck Centre and Cartage Company, employing approximately thirty Mississauga residents, - also providing service for several hundred customers, most of whom are resident and employed in the area.

I have conducted business in M2 Zone on the east side of Mavis Road, just south of Burnhamthorpe Road for the past 12 years.

On learning of your plans for the area, it was upsetting to say the least. I found it very hard to believe that you would consider building homes in this immediate area - and I understand right up to our back lot line.

During the work week we have heavy equipment constantly on the move and on weekends a lot of this equipment is parked on the property. I feel that a mixture of this and a residential area, with possibly many children running around is certainly most incompatible.

I hope the Municipality will take a second look at this situation and possibly consider going back to their previous plans for the area, which I understand was Light Industry - thereby avoiding what will surely bring large problems and possibly disaster.

Dear Sir:

Re: Vaughan O'Keefe Trust Fund

I am writing on behalf of the friends of Mr. and Mrs. Bernard O'Keefe of the City of Mississauga. Their son, Vaughan O'Keefe, was recently injured in a fall from a hydro tower and is very severely injured. He has just had an operation in which both his arms and a leg were amputated.

It is the wish of his friends and family that a fund be established for the benefit of Vaughan O'Keefe. This fund is to be used for the medical requirements that Vaughan will, no doubt, need in the future and for his education.

In order to solicit a wide response from the public, we feel that it would be desirable if donors could receive a deduction for tax purposes for the amount of the donation. We have been advised that the trust fund would be for a private benevolent purpose and would not be registered as a charity with Revenue Canada. We are further advised that Revenue Canada has suggested that the municipality set up the trust fund in order to allow donors to deduct their donations as a gift to a municipality.

The Toronto Sun has very generously offer to retain legal counsel to assist in the establishment of the fund and to draft the documents required to establish the same. We would ask that this proposal be put on the agenda for the meeting of City Council to be held on Wednesday, August 2nd, 1978.

If it is possible to have the proposal put on the agenda, or if you have any other questions in connection with this matter, would you kindly contact Miss Rosanne Rocchi of

MEMORANDUM

To Mayor and Members of Council - Special From Lyle F. Love,
Council Meeting of August 2nd. Dept. Recreation and Parks
Dept. _____

July 25, 1978

SUBJECT: BURNHAMTHORPE COMMUNITY CENTRE - OUTDOOR
ARTIFICIAL ICE RINK, TENNIS COURTS AND
ANCILLIARY BUILDING, TENDER TR-34-1978

ORIGIN: Council Resolution No.703, dated November
28th, 1977 and Recreation and Parks Department
report dated July 12th, 1978 (Special Council R2
of even date refers.)

COMMENTS:

1. The in-depth tender evaluation with the low bidder, Court Contractors Ltd., has taken place. Sub-contractors have been brought into this procedure and it has been found that economies can be made to the extent of \$35,000.00 by redesign of certain features and substitution of equipment in some areas.
2. The project was evaluated against the costs incurred for the construction of the Woodhurst Heights Park facility which is very similar to this one; various points came to light to indicate the differences in price.
 - (a) Concrete has increased in price by \$15.00 per cubic yard in the last six months.
 - (b) Refrigeration wages have increased to the extent where a \$3,000.00 extra in the price of the contract is necessary.
 - (c) The site conditions at Burnhamthorpe are quite different from those at Woodhurst Heights Park, demanding extra drainage and fill.

✓ ☒ RESOLUTION AVAILABLE

.....2

✓ ☒ BY-LAW AVAILABLE

R-1-a

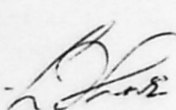

3. Court Contractors Limited's bid was \$269,650.00 and an addendum to the contract to reduce the costs by \$35,000.00 would still result in a net bid of \$234,650.00 which is \$29,650.00 in excess of the approved construction budget which has been established at \$225,000.00 less \$20,000.00 for equipment and fees for an amount of \$205,000.00. There is \$20,000.00 left over in the Unallocated Municipal Reserve Fund from the \$150,000.00 contribution from the Burnhamthorpe Community Centre Committee's donation and this could be made available to offset a portion of the budget difference. If this were done, an amount of \$9,650.00 would still be needed from reserve funds.

CONCLUSION:

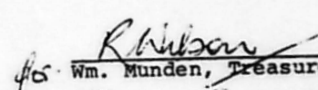

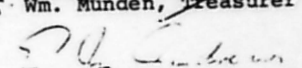

Construction costs are escalating at a rapid rate. Currently, the carpenters and labourers are out on strike for more pay and presumably the settlement of these labour disputes will add further to the escalation factor. All things being considered, the facility should be constructed at this time.

RECOMMENDATION:

- (a) That the Capital Budget for the construction of the Burnhamthorpe Outdoor Ice surface, Tennis Courts and Ancilliary Building be increased by \$29,650.00 drawn from reserve funds to a gross amount of \$254,650.00.
- (b) That the contract for the construction of the Burnhamthorpe Outdoor Ice Surface, Tennis Courts and Ancilliary Building be awarded to Court Construction Limited in the amount of \$234,650.00.
- (c) That a By-law to authorize the execution of an agreement between the City and Court Contractors Limited for the construction of the Burnhamthorpe Outdoor Ice Surface, Tennis Courts and Ancilliary Building be enacted.

July 26, 1978

SUBJECT: Reconstruction of Eglinton Avenue and Creditview Road Intersection

ORIGIN: 1978 Capital Works Program (Intersections)

COMMENTS: Listed below is a summary of tenders received and opened by a Committee of Council on Tuesday, July 25, 1978:

1. G. W. Barr Construction & Engineering Limited	\$55,828.00
2. Warren Bitulithic Limited	\$59,114.82
3. Bramall and Co. Construction Limited	\$65,244.50
4. Pave-Al Limited	\$65,329.00

Funding for this project is available as approved in the Engineering Department's 1978 Capital Works Budget (Intersections) in the amount of \$140,000.

The Budget figure exceeds the contract price because after the Budget was prepared, the design concept was changed as a result of the proposed realignment of Creditview Road to take place in 1979. Consequently, the extent of the work was reduced which also negated the need to purchase property.

Original departmental estimate of contract price - \$49,000

ORIGIN: Mrs. Felicia Tiberia of 2274 Buttonbush Crescent.

COMMENTS: Mrs. Tiberia has requested permission to close the portion of Buttonbush Crescent as indicated on the attached drawing for the purpose of holding a street party.

The event is planned to take place on Saturday August 5, 1978 from 8:30 p.m. to 2:00 a.m.

As those residents who may not take part in this event have access to their homes via the north leg of Buttonbush Crescent, we would therefore have no objection to this closing.

- RECOMMENDATION: a) That permission be given for the closing of a portion of Buttonbush Crescent as indicated on the attached map for the purpose of holding a street party.
- b) That the applicant be required to obtain a road closure permit in compliance with By-Law #7224, five full working days in advance of the event.
